### General Specifications

**Modular Steel Frame:** Frame shall be a welded assembly of 1-1/4" square 14 gage steel tube, drilled and tapped to receive casters and bored for connecting hardware. Finish shall be powder coat, manufacturer's standard colors.

**Casework Modules General:** Cases shall be constructed of 3/4" engineered wood panels with select grade oak or maple veneer or high-pressure laminate faces. Worksurfaces shall be 1-1/4" thick panels with 1-1/8" particle board core, horizontal grade (.045") high-pressure laminate upper surface and .030 backer sheet. Worksurface height shall be 30". Cases with oak or maple panels shall have 3mm wood edges. Cases finished in high-pressure laminate shall have 3mm PVC banding. Modules shall be bored to connect together with male/female assembly bolts.

### To Order, Choose Finish Selections & Options

**Work Surface:** Choose from our high-pressure laminate options.

**End Panels:** Choose from our high-pressure laminate or wood veneer options.

**Base Frame:** Choose from our powder coat selection.

**Edges:** Make PVC selection for all high-pressure laminate surfaces and wood selection for veneer panels, if applicable.

See **mediatechnologies'** Finish and Color Guide for choices at [www.mediatechnologies.com](http://www.mediatechnologies.com).

### PEDESTALS

- Available in steel or laminate.
- Mobile.
- Two file drawers.
- Two box and one file drawer.
- Cushion top with one box and one file drawers.
- Hanging file pedestal.

Hanging File/File    Cushion Top w/ Handle    Box/Box/File    File/File

**Outer Modules:** Vertical side panels shall be 1-3/16" thick. Front panel shall terminate and extend above the worksurface and shall in turn be terminated by a transaction ledge. Transaction ledge shall be constructed in the same manner as the main worksurface and shall have a bowed patron side hardwood edge. It shall be supported by the side panel and a steel support bracket.

**Central Module:** Front panel shall extend to the worksurface. Unit shall house two banks of drawers, each bank consisting of a lower file drawer and two upper box drawers. Each drawer shall use full extension ball bearing drawer slides rated at 100 lb capacity per pair.

**Casters:** Casters shall be 60mm twin wheel swivel casters with brake, rated at 100# per caster. Assembled unit shall use a total of (8) casters.
