

**FLIP-TOP TABLES**

**Mobile option:** Many T-base tables have options for mobility, usually with casters on one end (wheelbarrow style) or both ends. Typically, that will change the part number by adding a “-2C” or “-4C” respectively.

**Flip tops:** Additionally, several table lines e.g. Derby, have an option for a flip top for T-base and X-base. That option is only available on fully mobile (-4C) units so you need to choose the mobile option first. Once you do the flip position option becomes available allowing you to show the table in either flipped up or flipped down position.

Tabletop Edge	3mm PVC
PVC Edge	Solid Colors
PVC Solids	Medium Tone
HPL Finishes	General Laminates
Laminates-General	Elemental_Conc
Table Length	60"
Corners	Square Corners
Table Height	29"H
Mobile?	leveling glides only
Powder Coat	Grade 1
G1 Powder Coat	407 Stone

Non -mobile, no flip top option:

Tabletop Edge	3mm PVC
PVC Edge	Solid Colors
PVC Solids	Medium Tone
HPL Finishes	General Laminates
Laminates-General	Elemental_Conc
Table Length	60"
Corners	Square Corners
Flip top?	Fixed Top
Table Height	29' H
Mobile?	(4) casters
Powder Coat	Grade 1
G1 Powder Coat	407 Stone

Mobile, 4 casters, flip top option available but not chosen:

Tabletop Edge	3mm PVC
PVC Edge	Solid Colors
PVC Solids	Medium Tone
HPL Finishes	General Laminates
Laminates-General	Elemental_Conc
Table Length	60"
Corners	Square Corners
