

# Coined the phrase *30-year furniture!*

Designed  
to work  
and look great.  
Built to last.

## RUBIX

If you have worked with our mobile cabinets before, you can skip over to the next page. You already know that these mobile storage units helped to coin the phrase “30-year furniture”. You have put your hands on them and know how solidly they are built. You’ve slammed the doors and kicked the tires. You love how smoothly and easily they roll. You know that these cabinets are built like the proverbial... (see photo to the right).

If you have not yet had the experience of working with one of our mobile cabinets...  
*Prepare to be amazed.*

### RUBIX MOBILE STORAGE

- High pressure laminate worksurfaces
- Cabinet material options include thermally fused laminate and high pressure laminate with PVC edges and oak or maple veneer with wood edges.
- Backs are 3/4" engineered wood
- Steel frame is 11-gauge 1-1/4" square steel tubing. Frame assembly is attached to the cabinet using wood screws.
- Concealed door hinges and a variety of pulls available.
- Full-extension drawers
- Tote rails that are stop-and-tilt or fully extractable.
- Shelves adjustable in 32mm increments
- Rugged 75mm twin wheel locking casters that attach via threaded inserts on the underside of the steel frame assembly.
- Freestanding steel support legs are available upon request.

 RUBIX mobile storage cabinets are available in high-pressure laminate, melamine and veneer. You can even have your cabinet adorned with custom laminate! (Contact factory for quote). Make sure you specify your finishes and powder coat when ordering.

## RUBIX MOBILE STORAGE OPTIONS

Sure, they're boxes, but with these OPTIONS we can help you think way outside the box...

**Rubix to demonstrate or teach...**  
Put that vertical space to good use. Mount Surfboards to your cabinets...

**Rubix to store on the inside AND outside...**

Why be limited to storage inside the box when you can store things outside as well. Hang baskets, shelves and fixtures of all sorts to your cabinet. Mount slatwall to your cabinets - or have sides or backs made with slatwall.

...or have doors, sides or backs made with marker board material. If the top of your cabinet is working-height you can have a markerboard top as well.

**Rubix communication center...**

Have your Rubix speak volumes (one sheet at a time). Add a tackboard to your cabinet to really get your point across.

**World of Finishes...**

Yeah, we can finish your Rubix cabinet just how you want it - HPL, TFL, Veneers and custom graphic laminates. But did you know that we can go way beyond simply "markerboard" when it comes to functional finishes? We've got magnetic write-on surfaces and lot of the standard laminates that are available to us are already "Write-on" surfaces - like chalkboard?! Crazy, huh?

**Rubix as a base for something big...**

Rubix is a solid storage base for any number of operations from a large format printer to a silk screen press to a 3D printer. Mount up!

Cabinets designed with Tote-Rails are fitted with a neat Tote-Rail that can allow totes to with fully removable or stop-and-tilt.

A set of clips can be fitted to the back of each tote that make the tote stop-and-tilt. Without the clips, the tote is easy to slide out. Totes and clips are not included with the cabinet.

They are sold separately.
