### General Specifications

**End/Intermediate Panels:** All end and intermediate panels are un-detailed 3/4" engineered wood with high pressure laminate or melamine on both faces; exposed laminate panel edges are banded with 3mm PVC. Edges and corners radiused 1/8". Vertical panels are machined for the mounting of tote rails on Open Tote Storage units. One (1) mobile storage unit is constructed of two (2) end panels and one (1), two (2), or (3) intermediate panels. The Open Storage model has two, three or four storage compartments divided by one (1), two (2), or three (3) vertical intermediate panels. Each compartment will have one adjustable shelf.

**Top:** The top panel is 1" thick engineered wood with high pressure laminate or melamine. The laminate panel edges are banded with 3mm PVC. The top is attached with pre-glued dowels. The upholstered seat cushion assembly is 1-1/2" of upholstery foam on a 3/4" cushion backer. The seat cushion assembly is fastened to the top panel with screws.

**Base:** The base is 1" thick engineered wood with a high pressure laminate or melamine and a .030 phenolic backer; exposed laminate panel edges are banded with 3mm PVC. Edges and corners radiused 1/8". The base is fastened to the vertical panels with pre-glued dowels and screws. 75mm locking swivel casters with thermoplastic elastomer treads are bolted to the bottom of the base using 5/16" - 18 machine bolts. Casters are located at the four corners of the base.

**Back Panel:** Back is 3/4" thick engineered wood with a high pressure laminate or melamine.

**Tote Rails (on Open Tote Storage Models):** TOTR tote rails are mounted on the inside faces of the end panels and both faces of the intermediate panels and allow totes to be fully removable. Tote rail type and spacing is suitable for the use of TOT03- & TOT06- totes. *Totes are not included and can be found at: <https://www.mediatechnologies.com/product/totes>*
