

2021 BUILD & STORE PROGRAM

The Build & Store Program ensures that your Summer delivery orders are **GUARANTEED TO SHIP ON TIME.**

“Summer production lead times can stretch and deliveries can be delayed.

Using the Build & Store Program guarantees that your orders will ship on time.” – Happy Frequent User

Here's how it works

1. We receive your complete and qualifying purchase order starting now until March 15th and build your order to “inventory”.
2. We store it at no charge and ship it on your designated ship date between May 15th and September 1st.
3. We do not issue an invoice until your designated ship date.

Benefits of the program

- Orders that qualify for this program (\$10,000 net and up) will ship on time without delay. *If you need to move your date back because, for example, your site is not ready, we will hold* your completed order with no storage fee and ship when you need it.*
- Your order arrives at your location when you want it.
- Your order is built in the “off-season” avoiding peak season demand for fabrics and materials that could delay your order.
- Less stress and more peace of mind for you.

* We will send your invoice on the original ship date.
