

General Specifications

Back Panel: Back panel is 3/4" thick melamine or high pressure laminate

End Panels: End Panels are 1" thick melamine or high pressure laminate and are banded with 3mm PVC on all edges.

Top: Top consists of the main top and a sub-top for rigidity. Main top is 3/4" melamine or high pressure laminate. Edges are banded with 3mm PVC on all sides.

Base Assembly: Fully Upholstered Base is constructed of 18mm plywood frame with a 2" thick high density upholstery foam seat cushion. The base is fully upholstered. The base assembly sits on 4 self-leveling glides.

Tapered Side Cushions: Sides cushions are 2360 upholstery foam constructed on an 11/16 particle board core. The thickness of each side cushion is tapered from 3" thick at the top to 12" thick at the base. Each tapered side cushion is attached to the unit with high strength hook and loop fasteners.

Required to order:

Model # including:

- Laminate OR melamine selection
- PVC selection
- Fabric selection
- Optional Duet connectivity panel, if desired.

Nest is shown with optional Duet connectivity panel mounted in base.

General Specifications

Front & Back Panel: Panels are 3/4" thick melamine or high pressure laminate with PVC-banded cutout.

End Panels: End Panels are 1" thick melamine or high pressure laminate and are banded with 3mm PVC on all edges.

Top: Top consists of the 1" thick melamine or high pressure laminate main top and a sub-top for rigidity. Edges are banded with 3mm PVC on all sides.

Storage Base Assembly: Base includes a 4" toe assembly and three 18" wide and 6-3/4"H storage spaces. The storage space is defined by a 1" thick melamine or high pressure laminate top and bottom with 3/4" thick melamine or high pressure laminate dividers between the storage spaces. All edges are banded with 3mm PVC.

Seat and Tapered Side Cushions: Seat cushion is 1-1/2" firm upholstery foam on a 3/4" particle board core. Side cushions are 2360 upholstery foam constructed on an 3/4" particle board core. Each side cushion is 21-5/8" wide and 40" high. The thickness of each side cushion is tapered from 3" thick at the top to 6-1/8" thick at the base. Each tapered side cushion is attached to the unit with high strength hook and loop fasteners.
