General Specifications

Cabinet: Are constructed with 3/4" thick engineered wood sides panels, sub-tops, vertical dividers and shelves. Backs are constructed with 3/4" thick engineered wood. Cabinet finish material includes high-pressure laminate and melamine with PVC edges and wood veneer with wood edges. Worksurface tops receive a high-pressure laminate surface. Cabinets 72"H or taller do not receive a worksurface top.

Frame: Steel frame is 11 gauge 1-1/4" square steel tubing. Frame assembly is attached to cabinet using wood screws. Mobile units use 75mm twin wheel locking casters that attach via threaded inserts on underside of the steel frame assembly. Freestanding steel support legs and Mobile casters use the same threaded inserts and are interchangeable. Legs are available upon request.

Features of various cabinet configurations includes:

- Concealed door hinges and a variety of pulls available
- Tote rails that are Stop-n-Tilt and fully fully extractable. Tote rails are mounted on 4-1/4" centers for use of both F1TBA and F2TBB totes (sold separately).
