General Specifications

Table Top: Tops are 1-1/4" thick, three ply engineered wood construction with .050" high-pressure laminate (HPL) and a phenolic backer sheet. The Malibu edge is 2" x 1-1/2" solid red oak with a 45° bottom bevel starting 1/2" below top. Tops 60" and over are supported on the underside with a 14 gauge steel keel. To specify veneer core: Add -V to the model number.

Legs: The legs are solid glued up red oak with eased edges. The 2 outside faces bow inward from 2-1/2" at the top to 1-1/4" at the bottom. They are attached to the top by means of a 5" x 5/16" steel plate. The leg and the plate are joined by (2) 5/16-18 machine bolts screwed into a 1/2" diameter barrel nut which is embedded in the leg. The steel plate is attached to the table top by (5) 5/16-18 machine bolts which screw into 5/16-18 metal inserts embedded in the top. Each leg is equipped with a leveling glide.
