

ROCKFORD JUNIOR

Tables

General Specifications

Work Surface: Table tops are 1-1/4" thick, with a 1-1/8" thick, three-ply particleboard core with .050 high-pressure laminate top and a .030" or thicker phenolic backer. Edges are 3mm PVC.

Adjustable Leg: Each leg is composed of an outer steel tube and an inner steel tube that can slide within it. The outer steel tube has a welded mounting plate that is 1/8" thick steel, welded to outer leg at the top and a reinforcement gusset of 1/8" thick steel, welded to mounting plate and outer leg. The outer tube also includes an inner ABS collar that prevents marring of the inner tube finish while sliding during adjustment. Each leg is provided with a leveling glide at the bottom.

Outer Tube: 14 gauge steel, 1-1/2" outer diameter, approx. 1-1/4" inner diameter. Perforated near the bottom with pass thru holes for (2) adjustment screws.

Inner Tube: 14 gauge steel, 1-1/4" outer diameter. Perforated and tapped for adjustment screws on 1" center to center distance providing for an adjustment range of 4". Adjustment screws must thread into inner leg and not just contact it.

Gusset: 1/8" thick steel, welded to mounting plate and outer tube.

Mounting Plate: 1/8" thick steel, welded to outer tube and gusset. Each leg is mounted to the table with seven (7) 1" #12 wood screws. Insert & machine thread screw (metal-to-metal) available upon request.

Finish: See **mediatechnologies®** Finish and Color Guide for choices.
