Tables

General Specification

Table Top: Tops are 1-1/4" thick, three ply engineered wood construction with .050" high pressure laminate (HPL) and a phenolic backer sheet. The Heritage edge is 5/8" x 1-1/4" solid red oak with 1/8" roundover radius top and bottom. Tops 60" and over are supported on the underside with a 14 gauge steel keel. **To specify veneer core: Add -V to the model number.**

Legs: The legs are 2-1/2" solid red oak with a 1/4" round-over radius on all long edges. They are attached to the top by means of a 5" x 5" x 5/16" steel plate. The leg and the plate are joined by (2) 5/16-18 machine bolts screwed into a 1/2" diameter steel barrel nut which is embedded in the leg. The steel plate is attached to the table top by (5) 5/16-18 machine bolts which screw into 5/16-18 metal inserts embedded in the top. Each leg is equipped with a levelling glide.

Detail: A mission style detail of 7/8" x 2" solid red oak upper and lower rails with a 5/8" x 2-1/2" solid red oak vertical slat flanked by 1-1/2" W vertical slats spans between legs on each narrow end of a table. Tables 30" and wider receive 5 slats total. Tables under 30" wide receive 3 slats total. Detail is not applied to square or round tables.

Apron: The apron is 1"x3" with a hard sand break on exposed edges. Aprons are machined on inside the face at each end to receive a 12 gauge steel bracket which, when fastened to the aprons, forms a structural frame that supports the top. Mounting bolts pass through the brackets at each corner of the frame into the legs and, when tightened, rigidify the entire assembly. Aprons are machined on their inside faces with pocket holes and #8 screws pass through these to attach the table top.

Table height: The standard table height is 29". Other heights are available. **To specify height: Add height to the model number (i.e. -27 for 27" height).**
Specify: model number/edge/wood finish/laminate/height
