

### General Specifications

**Worksurface:** Work surfaces are 1" thick, with a 7/8" particleboard core, .050" high-pressure laminate top and a .030 or thicker phenolic backer. Edge is 1/8 PVC. Worksurface shapes match the base shapes and are available in round, square and rectangle shapes. \*Connectivity option available in work surface.

**Base:** Upholstered base fabricated in round, square and rectangle. Interior construction consists of a structural wood frame wrapped with 1/2" thick, 2.3# density foam on the sides with a Dacron slip cover.

**Models with Leg Assemblies:** Steel post legs are fabricated from 5/16" plate steel and include a curved profile with a square mounting plate and a pair of decorative gussets. The bottom of each leg is fitted with a threaded weld nut and 1-7/8" black leveling glide.

Wood legs are 3-1/3" x 3-1/2" hardwood with a 45 degree chamfer at the bottom edge. Wood post legs are attached 5/16"-18 bolt, washer and propeller nut.

**Models with Casters:** Casters are mounted to the base with a square mounting plate. FTD-20 models receive (5) 50mm casters, all other models receive (4) or (5) 75mm casters.

**Finish:** See **mediatechnologies®** Finish and Color Guide for powder coat, Laminate and PVC Edge choices.

- Required to order:** Model # including options if applicable
- high-pressure laminate and PVC edgeband selection
  - fabric selection
  - powder coat selection (if applicable)
